1 The U.S. dollar (US\$) amounts disclosed in this announcement, except for those transaction amounts that were actually settled in U.S. dollars, are presented solely for the convenience of the readers. The conversion of Renminbi (RMB) into US\$ in this announcement is based on the exchange rate set forth in the H.10 statistical release of the Board of Governors of the Federal Reserve System as of September 30, 2021, which was RMB6.4434 to US\$1.00. The percentages stated in this announcement are calculated based on the RMB amounts.

2 See the sections entitled "Non-GAAP Measures" and "Unaudited Reconciliation of GAAP and Non-GAAP Results" for more information about the non-GAAP measures referred to in this announcement.

3 Operating margin of JD Retail before unallocated items for the third quarter of 2020 was retrospectively adjusted to conform to current period presentation of segment information.

4 Annual active customer accounts are customer accounts that made at least one purchase during the twelve months ended on the respective dates, whether through online retail or online marketplace.

"With resilient business operations and core competences in technology and supply chain, JD has built a unique business model, enabling us to have better control across the entire business process," said Lei Xu, President of JD.com. "This powerful competitive advantage allows us to navigate through economic cycles and increases our ability to create value as a new type of real economy based enterprise. As a result, consumers and business partners increasingly trust and rely on JD, and we were able to outpace the industry growth in China in the third quarter. JD will continue to create value for our users and business partners, especially the millions of SMEs in the real economy that we work with every day."

"Our growing consumer mindshare helped drive the strong results for the quarter with more new and existing users purchasing high-frequency products such as supermarket categories on JD," said Sandy Xu, Chief Financial Officer of JD.com. "We were also pleased to see our key strategic initiatives including the third-party marketplace and omni-channel strategies begin to generate positive results. Going forward, we will continue to focus on building high-quality businesses and investing in technologies and core capabilities to ensure JD's sustainable growth in the long term."

### **Business Highlights**

### **Environment, Social and Governance**

- In August, Jingxi, a platform for everyday shopping under JD.com, donated over 100,000 prevention supply kits, including facemasks and hand sanitizers to local residents in Nanjing in response to the COVID-19 outbreak. Nanjing residents can apply to receive kits free of charge through Jingxi's multiple online platforms.
- During the 4th Chinese Farmers' Harvest Festival in September, JD.com announced that in 2021, the company's supportive measures for agriculture in rural areas have promoted the development of local brands from scratch, such as Suqian King Crabs in Jiangsu Province, and increased the transaction volume of local agricultural products by more than 200%. In continuing its commitment to rural rejuvenation, JD.com has constructed logistics infrastructure in production regions, and built an agricultural product marketing ecosystem which integrates JD's sales channels.

### **JD Retail**

- In September, JD.com opened its first "JD MALL" offline store in Xi'an offering consumers an immersive omni-channel shopping experience. In addition to traditional electronic categories offered by JD Super Experience Store, JD MALL provides over 200,000 items from more than 150 brands, in categories including home, furniture, kids, smart healthcare products and auto accessories. Through its partnership with furniture maker Shangpin Home Collection, JD MALL meets the demand among younger consumers for bespoke one-stop-shop home design services that incorporate furniture and home appliances categories.
- In the third quarter, over 20 domestic and international household and home decor brands launched official stores on JD.com, including Camerich, Lost & Found, QEEBOO, and Lattoflex, bringing a variety of high-quality and stylish home goods to address consumers' increasingly diverse lifestyle preferences.
- Sephora, a high-end beauty retailer owned by LVMH, recently joined JD.com's omni-channel service network. Products ordered through the Sephora store on JD.com can be delivered to consumers' doorsteps within one hour from nearby Sephora offline stores. Chinese beauty brand Perfect Diary also joined JD.com's omni-channel service network to offer delivery from its 120 offline stores in 84 cities.
- During the quarter, JD.com and Dada Group formed a strategic partnership with ASUS, a global technology leader, launching more than 150 ASUS stores on JD Daojia (JDDJ) and "Shop Now", JD.com's new on-demand consumer retail section. The three parties will further accelerate the digital transformation of physical stores in the second half of 2021 to improve the offline shopping experience for computer and digital products, including the extension of "one-hour delivery" service to all ASUS offline stores in China.

### **JD Health**

- In July, JD Health and Allianz JD, JD.com's joint venture with Allianz, one of the world's leading insurers and asset managers, jointly launched a comprehensive online clinical insurance service offering a one-stop platform for healthcare, medicine purchasing and insurance services. By connecting users directly with doctors, pharmacies and insurance companies, JD Health improves the experience of insured users through its full cycle service that provide online health consultations, prescriptions, direct claims and reimbursements as well as medicine purchasing and door-to-door delivery.
- In September, over 200 institutional exhibitors and participants attended JD Health's third Online Pharmaceutical Expo under the theme "Intelligent Digital Empowerment and Ecosystem Interconnection". JD Health helped to facilitate transactions between up and downstream players among the participating companies to create a "Intelligent Digital Pharmaceutical Circulation Supply Chain Ecosystem" to support digital transformation and optimize user experience in the health care industry.

### **JD Logistics**

- In September, JD Logistics launched an air cargo route between East China and London marking JD Logistics's first regular cargo charter flight between China and Europe. Further expanding JD Logistics's international transportation network, the route will deliver products from China's major manufacturing regions with same day port-to-port delivery and product arrival within one week.
- In the third quarter, JD Logistics established a strategic partnership with Volvo Cars to build integrated supply chain services for the mid and high-end auto aftermarket. The two parties will cooperate in areas such as supply chain warehouse networks planning, inventory management and store delivery.
- As of September 30, 2021, JD Logistics operated approximately 1,300 warehouses, which covered an aggregate gross floor area of over 23 million square meters, including space in cloud warehouses managed under the JD Logistics Open Warehouse Platform.

### **Third Quarter 2021 Financial Results**

**Net Revenues.** For the third quarter of 2021, JD.com reported net revenues of RMB218.7 billion (US\$33.9 billion), representing a 25.5% increase

from the same period of 2020. Net product revenues increased by 22.9%, while net service revenues increased by 43.3% for the third quarter of 2021, as compared to the same period of 2020.

**Cost of Revenues.** Cost of revenues increased by 27.3% to RMB187.6 billion (US\$29.1 billion) for the third quarter of 2021 from RMB147.4 billion for the third quarter of 2020.

**Fulfillment Expenses.** Fulfillment expenses, which primarily include procurement, warehousing, delivery, customer service and payment processing expenses, increased by 23.2% to RMB14.3 billion (US\$2.2 billion) for the third quarter of 2021 from RMB11.6 billion for the third quarter of 2020. Fulfillment expenses as a percentage of net revenues was 6.5% for the third quarter of 2021, compared to 6.7% for the same period last year.

**Marketing Expenses.** Marketing expenses increased by 42.3% to RMB7.8 billion (US\$1.2 billion) for the third quarter of 2021 from RMB5.5 billion for the third quarter of 2020.

**Research and Development Expenses.** Research and development expenses was RMB4.0 billion (US\$0.6 billion) for the third quarter of 2021, as compared to RMB4.1 billion for the third quarter of 2020.

**General and Administrative Expenses.** General and administrative expenses increased by 91.1% to RMB3.1 billion (US\$0.5 billion) for the third quarter of 2021 from RMB1.6 billion for the third quarter of 2020. The increase was primarily due to the increase in share-based compensation expenses.

**Income from Operations and Non-GAAP Income from Operations.** Income from operations for the third quarter of 2021 was RMB2.6 billion (US\$0.4 billion), compared to RMB4.4 billion for the same period last year. Non-GAAP income from operations for the third quarter of 2021 was RMB4.6 billion (US\$0.7 billion), compared to RMB5.3 billion for the third quarter of 2020. Operating margin of JD Retail before unallocated items for the third quarter of 2021 was 4.0%, compared to 4.2% for the third quarter of 2020.

## About JD.com

JD.com is a leading supply chain-based technology and service provider. The company's cutting-edge retail infrastructure seeks to enable consumers to buy whatever they want, whenever and wherever they want it. The company has opened its technology and infrastructure to partners, brands and other sectors, as part of its Retail as a Service offering to help drive productivity and innovation across a range of industries.

## Non-GAAP Measures

In evaluating the business, the company considers and uses non-GAAP measures, such as non-GAAP income/(loss) from operations, non-GAAP operating margin, non-GAAP net income/(loss) attributable to ordinary shareholders, non-GAAP net margin, free cash flow, non-GAAP EBITDA, non-GAAP EBITDA margin, non-GAAP net income/(loss) per share and non-GAAP net income/(loss) per ADS, as supplemental measures to review and assess operating performance. The presentation of these non-GAAP financial measures is not intended to be considered in isolation or as a substitute for the financial information prepared and presented in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP"). The company defines non-GAAP income/(loss) from operations as income/(loss) from operations excluding share-based compensation, amortization of intangible assets resulting from assets and business acquisitions, effects of business cooperation arrangements, gain on sale of development properties and impairment of goodwill and intangible assets. The company defines non-GAAP net income/(loss) attributable to ordinary shareholders as net income/(loss) attributable to ordinary shareholders excluding share-based compensation, amortization of intangible assets resulting from assets and business acquisitions, effects of business cooperation arrangements and non-compete agreements, gain/(loss) on disposals/deemed disposals of investments, reconciling items on the share of equity method investments, loss/(gain) from fair value change of long-term investments, impairment of goodwill, intangible assets and investments, gain and foreign exchange impact in relation to sale of development properties and tax effects on non-GAAP adjustments. The company defines free cash flow as operating cash flow adjusting the impact from JD Baitiao receivables included in the operating cash flow and capital expenditures, net of the proceeds from sale of development properties. Capital expenditures include purchase of property, equipment and software, cash paid for construction in progress, purchase of intangible assets and land use rights. The company defines non-GAAP EBITDA as non-GAAP income/(loss) from operations plus depreciation and amortization excluding amortization of intangible assets resulting from assets and business acquisitions. Non-GAAP basic net income/(loss) per share is calculated by dividing non-GAAP net income/(loss) attributable to ordinary shareholders by the weighted average number of ordinary shares outstanding during the periods. Non-GAAP diluted net income/(loss) per share is calculated by dividing non-GAAP net income/(loss) attributable to ordinary shareholders by the weighted average number of ordinary shares and dilutive potential ordinary shares outstanding during the periods, including the dilutive effect of share-based awards as determined under the treasury stock method. Non-GAAP net income/(loss) per ADS is equal to non-GAAP net income/(loss) per share multiplied by two.

The company presents these non-GAAP financial measures because they are used by management to evaluate operating performance and formulate business plans. Non-GAAP income/(loss) from operations, non-GAAP net income/(loss) attributable to ordinary shareholders and non-GAAP EBITDA reflect the company's ongoing business operations in a manner that allows more meaningful period-to-period comparisons. Free cash flow enables management to assess liquidity and cash flow while taking into account the impact from JD Baitiao receivables included in the operating cash flow and

the demands that the expansion of fulfillment infrastructure and technology platform has placed on financial resources. The company believes that the use of the non-GAAP financial measures facilitates investors to understand and evaluate the company's current operating performance and future prospects in the same manner as management does, if they so choose. The company also believes that the non-GAAP financial measures provide useful information to both management and investors by excluding certain expenses, gain/loss and other items that are not expected to result in future cash payments or that are non-recurring in nature or may not be indicative of the company's core operating results and business outlook.

The non-GAAP financial measures have limitations as analytical tools. The company's non-GAAP financial measures do not reflect all items of income and expense that affect the company's operations or not represent the residual cash flow available for discretionary expenditures. Further, these non-GAAP measures may differ from the non-GAAP information used by other companies, including peer companies, and therefore their comparability may be limited. The company compensates for these limitations by reconciling the non-GAAP financial measures to the nearest U.S. GAAP performance measure, all of which should be considered when evaluating performance. The company encourages you to review the company's financial information in its entirety and not rely on a single financial measure.

(1) JD Technology performs credit risk assessment services for JD Baitiao business and absorbs the credit risk of the underlying Baitiao receivables. Facilitated by JD Technology, the company periodically securitizes Baitiao receivables through the transfer of those assets to asset-backed securitization plans and derecognizes the related Baitiao receivables through sales type arrangements.

(2) The company entered into definitive agreements to transfer certain logistic facilities and real estate properties to third parties through the infrastructure asset management and integrated service platform of JD Property. The company classified the related undisposed assets and liabilities as assets and liabilities held for sale under ASC 360.
